Our Firm approaches each case individually and on a personal basis. We carefully assess the unique aspects of your case, and devise a plan to resolve it in a cost-effective manner. We understand that the stress of litigation can take a toll on business relationships, family connections and productivity. As a result, we often seek to resolve disputes through value-added settlements, mediations or arbitrations in addition to traditional litigation. And because justice cannot always be measured by the hour, we offer our clients representation on a contingent or hybrid-fee basis in appropriate cases.
