

SETTLEMENT COUNSEL IN FAMILY LAW DIVORCE

As an outgrowth of the firm's Business Divorce practice, we work as Settlement Counsel retained by family law lawyers to assist in structuring the division of complex marital assets for high net worth individuals who are going through a divorce. We work closely with family law co-counsel to restructure private company ownership to permit the couple to continue ownership in these investments following their divorce with the goal of maximizing their ultimate financial returns. In each case, we prepare a detailed, customized business solution for the client's needs. Through our efforts, these private company assets and investments are divided in a manner that enables the divorcing parties to achieve their business and financial objectives.
