

Webinar: Managing Distress in the Energy Sector: Strategies and Alternatives

April 26, 2016

In partnership with Marcus Evans, Diamond McCarthy is participating in a webinar scheduled to take place on Thursday, April 26, that will focus on the Energy Sector. On behalf of Diamond McCarthy, we wanted to invite you to attend this complimentary program and have included all of the event details below.

During the webinar, we will explore business and litigation strategies for dealing with defaults under energy-related agreements and investments.

In particular, our panelists will focus on:

- Sabine Oil Chapter 11 case – agreements involving exploration, gathering, storage and transportation
- Litigation issues and bankruptcy filings
- Capital and banking structure – the role to aid or inhibit actions in the energy sector
- E&P companies- actions for survival
